# KIDS Climber Dome

- As a manufacturer of Kids climber dome, we feel great pride in creating a high-quality and durable play structure which provides fun and also increases stamina on regular usage. Our climber dome is designed to provide kids with a challenging and exciting play experience that helps them develop their physical and mental abilities. We have used a special type of pipe and nut bolt with round edges to avoid harm to the soft body of children.

## Specifications:

Diameter - 11' 9"

Height: 7'

Material used: CR steel pipe

Protection: High-quality powder coating

Nut-Bolt: Stainless steel

Underside protection with Dome nut

Rust resistant powder coating

### Benefits of climber Dome:

- This dome enhances **physical fitness, coordination, and balance**. It's also an excellent way for children to develop their **problem-solving skills, spatial awareness, and confidence**.

- Made up of Environment-Friendly material
- High weight carrying capacity
- NO sharp edges (safe for children)
- Suitable in all weather conditions
